## INDEX

**A**BSTRACTS of papers scheduled for the Ninth Annual Meeting, Marine Biological Laboratory, Woods Hole, Massachusetts, 1954, and for the sectional meeting of the society with the A.A.A.S. and Western Society of Naturalists, Berkeley,

<b>A</b> STRACTS of papers scheduled for the Ninth Annual Meeting, Marine Biological Laboratory, Woods Hole, Massachusetts, September 8 and 9, 1954, and for the sectional meeting of the society with the A.A.S. and Western Society of Naturalists, Berkeley, Calif., December 27, 1954	
Acetylcholine and 5-hydroxytryptamine, responses of a molluscan smooth muscle to	
Acid derivatives and the growth and development of <i>Rana pipiens</i> , analogue of nucleic	
Acid purines and protein in enucleated and nucleated sea urchin eggs, synthesis of ribonucleic	
Action potential, oxygen consumption and coenzyme content in degenerating peripheral axons, some relations between	
Activation of a non-propagating muscle in Thyone	
Adrenal autotransplants in the rat, the effect of x-irradiation on the growth and histochemistry of	
AIRD, ROBERT B. See Goldsworthy, Patrick D.	
ALLEN, BENNET M., OLE ARNE SCHJEDJE AND RONALD PICCIRILLO. Influence of anoxia upon hematopoietic cells of tadpoles exposed to x-irradiation or colchicine	
Ammonium chloride, the hemolytic and antihemolytic action of dodecyl	
Amoeba proteus; plasmagel structure in relation to form and movement, temperature-pressure experiments of	
Analogue of nucleic acid derivatives and the growth and development of <i>Rana pipiens</i> . I. The cyclic inhibition of the development of <i>Rana pipiens</i>	
Analysis of the luminescent response of the ctenophore, <i>Mnemiopsis leidyi</i> , to stimulation	
Anoxia upon hematopoietic cells of tadpoles exposed to x-irradiation or colchicine, influence of	
Antihemolytic action of dodecyl ammonium chloride, the hemolytic and	
Autotransplants in the rat, the effect of x-irradiation on the growth and histochemistry of adrenal	
Axons, some relationships between action potential, oxygen consumption and coenzyme content in degenerating peripheral	
Azide and electrical polarization on refractory period in frog nerve, effects of	
Azide and the effect of activity in frog nerve	
Azide inhibition of water influx into individual radish root-hair cells, reversible	
<b>B</b> ACTERIAL cultures, control of cell division in	177
Bacterial luminescence, some comparative biochemical aspects of cell-free	277
Barrier—The effect of acidic dissociation constant on the permeation of certain sulfonamides into the brain. The blood-brain	519
325 BECKER, RONALD A. See Goldsworthy, Patrick D.	519
141 BENNETT, MIRIAM F. See Brown, Frank A., Jr.	477
11 BIEBER, SAMUEL. Analogue of nucleic acid derivatives and the growth and development of <i>Rana pipiens</i> . I. The cyclic inhibition of the development of <i>Rana pipiens</i>	11
105 Biochemical aspects of cell-free bacterial luminescence, some comparative	277
395 Blood-brain barrier—The effect of acidic dissociation constant on the permeation of certain sulfonamides into the brain. The	519
247 Blockage of impulses in the dorsal root ganglion by curare	322
33 Brain. The blood-brain barrier—The effect of acidic dissociation constant on the permeation of certain sulfonamides into the	519
519 BRIDGMAN, JOSEPHINE, AND R. F. KIMBALL. The effects of x rays on division rate and survival of <i>Tilina magna</i> and <i>Colpoda</i> sp. with an account of delayed death	431
318 BRINK, FRANK, JR. See Greengard, Paul	395
291 BRONK, DETLEY W. Editorial transition: Resignation, appreciation and succession	535
211 BROWN, FRANK A., JR., MIRIAM F. BENNETT AND H. MARGUERITE WEBB. Persistent daily and tidal rhythms of $O_2$ -consumption in fiddler crabs	477
11 Bullfrog, the effect of dehydration and low temperature on renal function in the	233
365 <b>C</b> ELL division in bacterial cultures, control of	177
318 Cell-free bacterial luminescence, some comparative biochemical aspects of	277
291 Cells of tadpoles exposed to x-irradiation or colchicine, influence of anoxia upon hematopoietic	318
33 Cells, reversible azide inhibition of water influx into individual radish root-hair	165
395 CHAMBERS, EDWARD L. See Kao, C. Y.	447
CHAMBERS, ROBERT. See Kao, C. Y.	447
117 CHANG, JOSEPH C. Analysis of the luminescent response of the ctenophore, <i>Mnemiopsis leidyi</i> , to stimulation	365
113 CHASE, AURIN M. See Osborne, Alan W.	49
165 Chloride, the hemolytic and antihemolytic action of dodecyl ammonium	291

Coenzyme content in degenerating peripheral axons, some relationships between action potential, oxygen consumption and ..... 395

Colchicine, influence of anoxia upon hematopoietic cells of tadpoles exposed to x-irradiation or ..... 318

COLOWICK, SIDNEY P. See Greengard, Paul

*Colpoda* sp. with an account of delayed death, the effects of x rays on division rate and survival of *Tillina magna* and ..... 431

Comparative study of the oxygen dissociation of mammalian hemoglobin, a ..... 421

Conduction in smooth muscle of *Phascolosoma proboscis* retractors, nervous ..... 255

Conidia, the nuclear role in the ultraviolet inactivation of *Neurospora* ..... 1

Control of cell division in bacterial cultures ..... 177

CORMIER, M. J., AND B. L. STREHLER. Some comparative biochemical aspects of cell-free bacterial luminescence ..... 447

Crabs, persistent daily and tidal rhythms of  $O_2$ -consumption in fiddler ..... 277

Ctenophore, *Mnemiopsis leidyi*, to stimulation, analysis of the luminescent response of the ..... 365

Cultures, control of cell division in bacterial ..... 177

Curare, blockage of impulses in the dorsal root ganglion by ..... 322

Cyclic inhibition of the development of *Rana pipiens*, the ..... 11

Cypridina luciferase by urea, inactivation of ..... 49

Cypridina luciferin without luciferase together with an appraisal of the term luciferin, luminescence of .. 63

**D**EATH, the effects of x rays on division rate and survival of *Tillina magna* and *Colpoda* sp. with an account of delayed ..... 431

Dehydration and low temperature on renal function in the bullfrog, the effect of ..... 233

Derivatives and the growth and development of *Rana pipiens*, analogue of nucleic acid ..... 177

Division in bacterial cultures, control of cell ..... 11

Division rate and survival of *Tillina magna* and *Colpoda* sp. with an account of delayed death, the effects of x rays on ..... 315
